

AZDEN PRO SERIES

Affordable DSLR Wireless Microphone Systems

Camera Not Included

The Legendary AZDEN PRO Series

For over 30 years, AZDEN has been synonymous with affordable and reliable wireless microphone systems in the U.S. and all over the world. AZDEN has gained much popularity with its line of PRO Series VHF Wireless Microphone Systems. With countless systems sold in the United States, the AZDEN PRO Series is widely recognized as the top wireless system for today's DSLR cameras.

DSLR Cameras give you excellent image quality, but their audio capability is seriously limited. The camera's built-in microphone is quite thin sounding and its omni-directional pickup pattern picks up unwanted ambient noises that can overpower the sound you are going after, therefore hindering your video. An AZDEN PRO Series Wireless Microphone System will enable you to easily capture the sound you want without any surrounding noises.

For a great PRO audio enhancement to your DSLR setup, contact your local AZDEN dealer today!

WHX-PRO

(Handheld microphone system)

A complete system which includes the WM/T-PRO self-contained handheld microphone / transmitter, and the WR-PRO receiver, which comes with both a shoe-mount and hook-and-loop fastener. Standby switch on the microphone allows you to pass it around without "touch" noise.

WLX-PRO

(Lavalier microphone system)

A complete system which includes the WL/T-PRO, belt-pack transmitter (WM-PRO) with electret condenser lavalier microphone (EX-503), and the WR-PRO receiver, which comes with both shoe-mount and hook-and-loop fastener.

WMS-PRO

(Lavalier & Handheld microphone system)

This versatile system consists of the WM-PRO belt-pack transmitter, 2 plug-in electret condenser microphones, a lavalier (EX-503) and handheld (EX-413), and the WR-PRO receiver, which comes with both a shoe-mount and hook-and-loop fastener.

All receivers and transmitters in the "PRO" Series are on the same 2 frequencies (169.445MHz and 170.245MHz) and use the same circuitry, making them interchangeable, and allowing you to add to your system at any time.
